PRODUCT DESCRIPTION

INTENSE IMMUNE SYSTEM SUPPORT

DMG Benefits

A dietary supplement to support immune system, circulatory, cardiovascular and neurological functions, as well as muscle recovery and endurance.*

Dimethylglycine (DMG) is a nutrient which is found in the cells of both plants and animals.

The human body produces DMG in very small amounts.

Supplementing the diet with higher levels of DMG greatly improves the nutritional environment of the cell.

Dimethylglycine has been found effective in supporting immune system function and better utilization of oxygen at the cellular level.*

DMG supports lactic acid metabolism during workouts thereby supporting recovery and endurance.*

Benefits for you:

Intense Immune System Support*

Protect against infections*

Normalizing Body Functions*
Helping The Body Cope With Stress*
Enhancing Metabolic Function*
Improving Energy Levels*
Reduces inflammation*

Yielding: D-Fraction 9 mg
N,N-Dimethylglycine (DMG) 450 mg

Other ingredients: glycerin, water, rosmarinic acid.

ABOUT

- **Maitake** is a mushroom that has been used in traditional Japanese herbalism for hundreds of years.

Maitake Mushroom has a high nutritional profile, enhances the immune system, helps the body cope with stress and normalizes body functions, and is rich in Beta-Glucans.*

- **Beta-Glucans** are polysaccharides that support immune system activation.*
- **Maitake PD-Fraction®** is a trademarked brand of highly purified, standardized extract of Maitake mushroom that yields 30% pure D-Fraction®.
- **D-Fraction®** has been extensively researched and is a highly concentrated source of Beta-1,6-Glucans, which has a higher ability to support macrophages, T killer cells, support release of interleukins and cytokines that activate immune cells, and support the immune system.*
- **The D-Fraction®** from Maitake Product Inc. is the only Maitake product that has been approved by the FDA for conducting phase 2 clinical studies (IND #54,589).*
- **Gluconic®** DMG from DaVinci® Laboratories of Vermont is a metabolic enhancer that promotes a strong immune system.*
