Pea Protein Isolate, Flavouring, Colour, Thickener

(Xanthan Gum), Sweetener: (Stevia, Sucralose)  
Allergen Warning: For allergens see ingredients in bold.  
Made in a facility that handles milk, egg and soy.

## **ABOUT**

Vegan Pea Isolate is an excellent alternative to proteins derived from dairy products. It boasts a very high biological and digestion rate. Pea protein also contains substantial amounts of the branched-chain amino acids Leucine, Isoleucine and Valine.

Our Vegan Pea Isolate not only contains 38 grams of protein in each serving, it is easy to mix and tastes great.

Vegan Pea Isolate has been shown by some studies to suppress the rate at which Ghrelin (the hormone which stimulates the feeling of hunger) is secreted by the stomach and could, therefore, form a useful part of a weight-loss regime by helping to curb food cravings.

Vegan Pea Isolate is derived from Yellow Split Peas and is, therefore, suitable for vegans, vegetarians and those with lactose or gluten intolerances.
